Manori Madam SLIIT
Anyway i think we already discussed related to your panel comments. Do you need an appointment time? 12:58

In the panel comments do you have anything other than the dataset issue? 12:58

Yes madam it would be fine if you could give a convenient time for the appointment next week. 13:08

Manori Madam SLIIT
We can have an online meeting on Monday 9.00am 14:55

We are working on it madam 18:21 ✓✓

Savandi SLIIT
Will there be another selection process as well for the NBQSA ? 18:22

Manori Madam SLIIT
Yes there is. 18:52

But you'll need to have a complete product sooner. 19:09

Dhanuja SLIIT
Madam, we'll talk about it among us whether all of us are able to deliver a completed product sooner than the original date, due to the current circumstances since there aren't any physical meet ups and some device issues are there as well for one member. 19:29

Regarding the dataset 12 March 2021

13 March 2021

Dhanuja SLIIT
The panel didn't exactly say to take a new dataset but asked about how we are going to get an idea about the US market..whether through an external party or not...and they thought that its because of the dataset, that we are planning to develop a US based application. But from the beginning itself we planned on targeting US and that is why the initial front-end UI is having a US map as well. Even for the domain name, we selected it as .com and not .lk. We didn't get to emphasize much on that fact madam. So if we plan to continue with it, will finding an external person from US be sufficient madam? 13:26

Dhanuja SLIIT

13:26

Manori Madam SLIIT
In that case it would be ok. You can find an external person. 13:46

If you have a reasonable reason other than the dataset, to target on US market then it is alright. 13:47

Panel will need a proper justification for working on a US based product 13:48

Yes miss, its true. 14:18

Due to the higher business value that our application can receive by extending the services within that market because the prevailing systems there are still not much user friendly and does not maintain a quality user experience madam..
Ex: hard to navigate and find classifieds. Not very well focused.

And also , Now if we are targeting on the local market we have to consider sinhala as well, when content monitoring which can exceed the project scope madam 14:57 ✓✓

20 March 2021

Madam , should we meet in campus next week or just proceed with the meetings online? 10:07 ✓✓

Manori Madam SLIIT
For next week an online meeting would be convenient. 12:51
